Water in our Body

- Eyes 95%
- Brain 75%
- Blood 83%
- Liver 86%
- Kidney 83%
- Heart 79%
- Lungs 80%
- Joints 83%
- Muscles 76%
- Skin 70%

Fatigue
Water is the most vital source of energy in the body. Dehydration causes the enzymatic activity in the body to slow down, resulting in tiredness and fatigue.

Asthma and allergies
When dehydrated, your body will release histamine and react to airborne water. In fact, the rate of histamine produced by the body increases exponentially as the body loses more and more water.

High cholesterol
When the body is dehydrated, it will produce more cholesterol to prevent water loss from the cells.

Bladder or kidney problems
In a dehydrated body, the accumulation of toxins and acid waste creates an environment where bacteria thrive, resulting in the bladder and kidney to be more prone to infection, inflammation and pain.

Constipation
When short of water, the colon is one of the organs requiring the body to draw water from in order to provide fluids for other critical body functions. Without adequate water, wastes move through the large intestine much more slowly or sometimes not at all, resulting in constipation.

Joint pain or stiffness
All joints have cartilage padding which is composed mostly of water. When the body is dehydrated, cartilage is weakened and joint repair is slow resulting in pain and discomfort.

Weight gain
When dehydrated, your body often cannot eliminate toxins effectively thus storing them in fat cells. Furthermore, the body will not release the fat unless it is sufficiently hydrated to safely remove these toxins.

Premature aging
When chronically dehydrated, the body's organs, including the skin, begin to wear and wear prematurely.

High blood pressure
The blood is roughly 90% water when the body is fully hydrated. When dehydrated, the blood becomes thicker causing resistance to blood flow and resulting in elevated blood pressure.

Skin disorders
Dehydration impairs the elimination of toxins through the skin and makes it more vulnerable to all types of skin disorders, including dermatitis and psoriasis, as well as premature wrinkling and discoloration.

Digestive disorders
A shortage of water and alkaline minerals, such as calcium and magnesium, can lead to a number of ailments of the digestive system, including ulcers, gastritis and acid reflux.

The average human body is **75%** water.

On average you should aim to drink 8 8-ounce glasses of water every day.

Factors that require increased water consumption include exercise, environment, stress, pregnancy, breastfeeding.

The average adult loses about 10 cups of water every day, aimed to breathing, sweating, urinating and eliminating waste.

Functions

Essential Properties

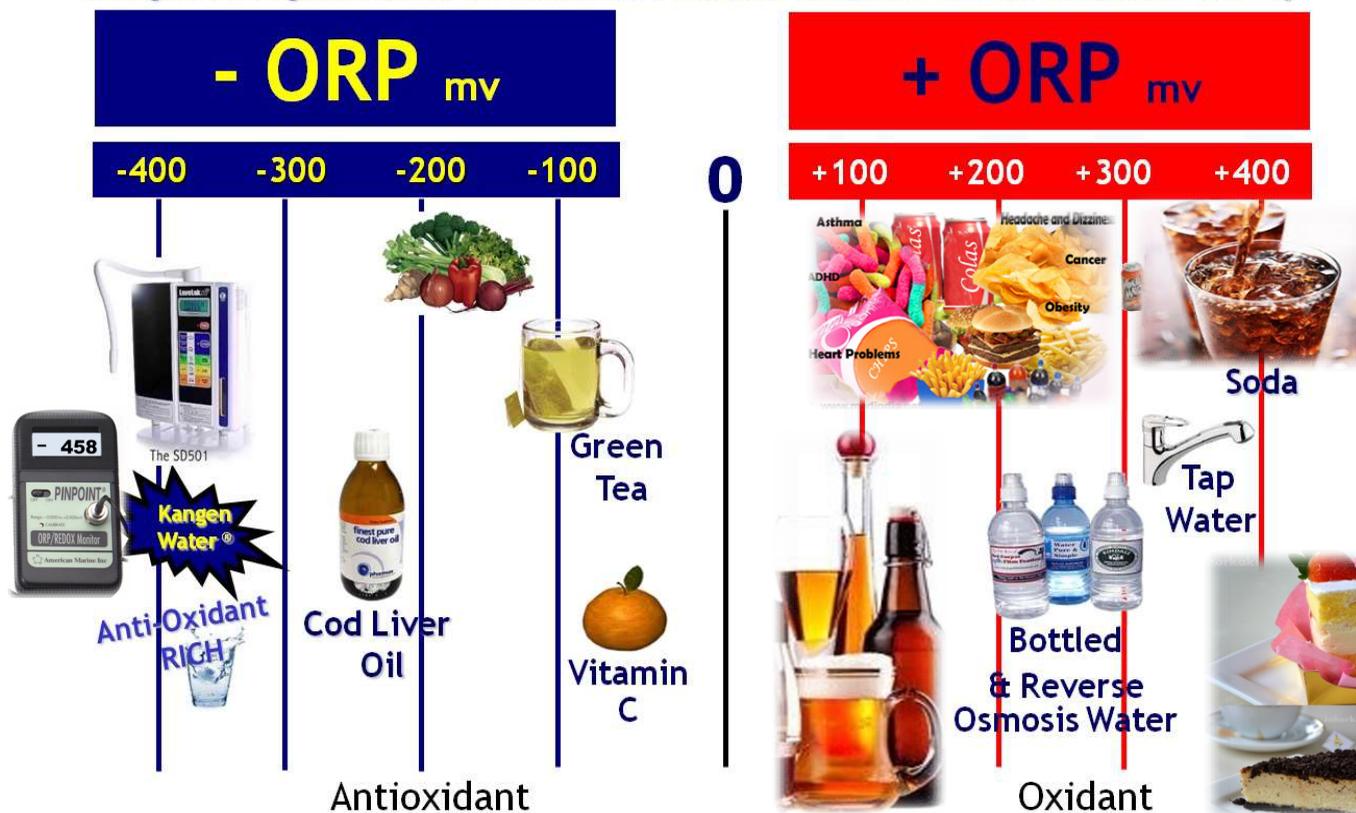

- ❖ **Anti-Oxidation**
Fights with Oxidative Stress
- ❖ **Alkalization**
Fights with Acidic Stress
- ❖ **Micro-Clustering**
Fights with Dehydration & support in Detoxification

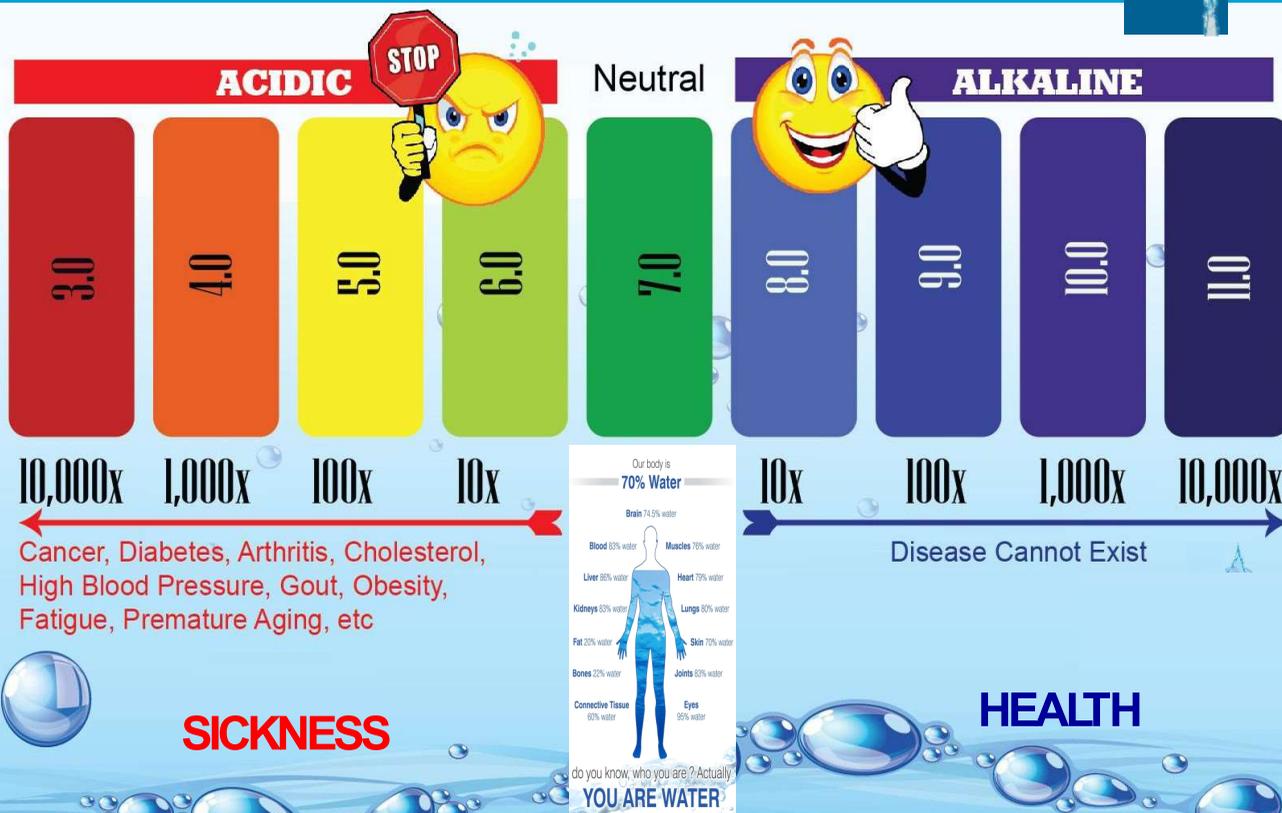

Anti-Oxidation

ORP = Oxidation Reduction Potential

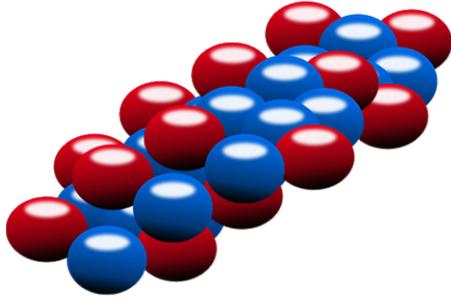

The Higher the Negative Number the Greater the Potential to Reduce the Levels of Oxidation in the Body

Alkalization

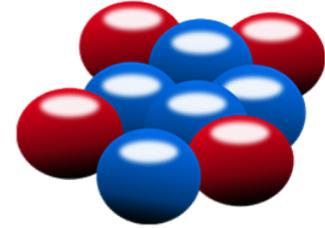

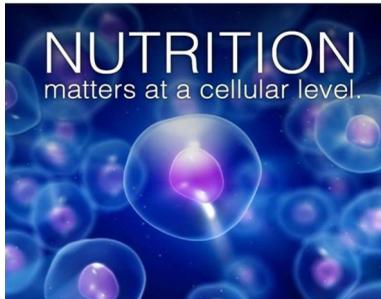

Micro-Clustering

Regular H₂O Cluster

15 - 20 Molecules

Larger clusters limit absorption by the body

KANGEN™ H₂O

Micro-Cluster

4 - 6 Molecules

Micro-clusters allow greater penetration and easier absorption

“If I were looking for an electrolysis unit today. I would choose the SD 501 made by Enagic Company. I have explained most of my reasoning for this decision in earlier comments. The versatile multi-function is rather expensive at just under US \$4000 but worth every penny and is simply the of water ionizers.”

Healing, Inside Out with Kangen Water for 37yrs

"..... able to report clinical results of a 0% cancer recurrence rate."
"I will say that again, None of my patients have had to face cancer again."

Hiromi Shinya M.D., Ph.D.

PROFESSOR OF SURGERY at Albert Einstein College of Medicine

CHIEF OF ENDOSCOPY at Beth Israel Medical Center N.Y.

"Kangen water is alkaline rich water (8.5 – 9.5 pH) and is considered the very best drinking water because of its incomparable powers of: hydration, detoxification and anti-oxidation".

Dr. **Hiromi Shinya** (a world-renowned Japanese gastroenterologist, co-developer of the colonoscopy technique) is often mentioned in connection with **Kangen Water**. Kangen Water is alkaline rich water (pH 8.5– pH9.5), and is considered the very best drinking water because of its incomparable powers of hydration, detoxification, and anti-oxidation. I have examined more than 300,000 people's stomachs and intestines for 35 years and realize that our health depends largely on our dietary life Water is essential for your health.

He was known for saying that, Almost **90% of illnesses are related to lifestyle** (diet, hydration, stress, etc.). He recommended two key lifestyle changes to his patients:

- 1. Eat mostly a natural, plant-based diet** (more fruits, vegetables, and natural foods).
- 2. Drink plenty of good, antioxidant-rich water** to keep the body hydrated and reduce oxidative stress.

Strong Acidic Water 2.5 pH

Disinfectant : Electrolyzed Hypochlorous Acid

- Kills virus and bacteria
- Sterilizing & Sanitizing
- Skin Rashes, Eczema & Psoriasis etc.

After 2 weeks, the vesicles dried up. The Eczema was completely cleared out without relapse.

LEVELUK SD 501

The SD501 is the finest machine in its class, with the highest quality built-in electrolysis chamber on the market. SD501 is flagship model because it provides additional stable oxygen, better micro-clustering, and higher negative ORP levels. Like all 501 models, the SD501 uses innovative electrolysis technology with 7 platinum dipped 99.97% pure titanium electrode plates. Plate Size (mm)135 X 75, Negative ORP (MV) -800, pH range 2.5 to 11.5, wattage 230W, Total weight 6.3kg, Dimensions WHD (mm) 264 X 338 X 171, Ease of Use Fully automatic very simple operate and low maintenance machine, Language 1, warranty 5 years.

LEVELUK SD 501P

The SD501 PLATINUM is more stylish kitchens, with the highest quality built-in electrolysis chamber on the market. SD501 is flagship model because it provides additional stable oxygen, better micro-clustering, and higher negative ORP levels. Like all 501 models, the SD501 uses innovative electrolysis technology with 7 platinum dipped 99.97% pure titanium electrode plates. Plate Size (mm)135 X 75, Negative ORP (MV) -800, pH range 2.5 to 11.5, wattage 230W, Total weight 6.3kg, Dimensions WHD (mm) 264 X 338 X 171, Ease of Use Fully automatic very simple operate and low maintenance machine, Language 5, warranty 5 years.
